leave Pasečna on the road to south-west (it is the junction at the bend) /// take the gravel road to the left of the farm-house /// at the stony cross turn left /// follow the road to its end /// walk around the dung-deposit and follow the path in the grass uphill and then back to the forest on your right side /// 20 meters before you reach the forest cross the meadow on your left side /// walk straight up to the forest and follow the edge of the forest to the left side /// after two turns to the left and to the right follow the edge of the forest from inside the forest /// you come to a path into the forest /// follow the path downhill /// sometimes the path is grassy, sometimes it is nearly invisible but it goes almost straight ahead /// follow the border between the old trees (at your right hand side) and the young trees (at your left side) /// after 20 meters you see a small clearing at your left side /// cross the clearing (at your left hand side is a small enclosure) /// you find a path through the grass ///

after the next 30 meters the path is again grassy /// 25 meters after the grassy spot is a junction to your right /// follow the carriage road downhill, it leads you down to a relatively open area where many trunks are marked orange /// there you will find a boundary-post /// cross the border /// after 10 meters you find a small brook /// cross it and after another 10 meters you find a white post and another small brook /// go straight ahead and follow the carriage road on the half-left up the hill /// after 10 meters follow the junction to the right /// negotiate all next junctions /// after a left turn you can see a clearing /// there take the junction to the right down the hill /// follow it along the edge of the forest /// ATTENTION /// don't leave the forest, on the clearing are five watch-towers /// at the left side comes a spring /// follow the brook to the young trees /// there again is a carriage road /// follow it downhill /// after 20 meters go to the left through the forest (cross the brook) /// on your right hand side you can see a clearing /// ATTENTION /// don't leave the forest, on the clearing are additional watch-towers /// ATTENTION /// walk very quiet and close to the edge of the forest because on your left hand side you pass a watch-tower in a distance of 15 meters /// follow the edge of the forest /// it guides you down the hill /// when you come to a small river follow it to the left (but stay inside the forest) /// after approx. 500 meters you can see a white chapell on the other side of the river /// cross it /// the chapell is a good pick-up place (but not on sunday - to many prayers)
